CHICAGO – Eidco Construction, a commercial construction management company, has hired Mark Zolen of Lake In the Hills as a superintendent to support the firm's national growth.

Zolen will travel to various job sites and begin at a project in South Dakota.

"Mark's thorough knowledge of all facets of the construction process including planning, budgeting and his effective communication skills will help us maintain Eidco's stature as a national player in the construction industry," said Eidco CEO Chez Eider.

Most recently, Zolen was a project manager at Capital Construction Group in Algonquin.

– From local sources

A leading general contractor and construction management company, Eidco Construction is experienced in the building of commercial construction projects as well as residential developments. The firm provides pre-construction, construction management, "fast track" building and design+build services. For more information on Eidco Construction, visit www.eidcoconstruction.com.
