## **Eidco Awarded Westgate Mall Project**

### **Project Involves Interior and Exterior Improvements and Building Addition for Retail Center**

**CHICAGO, IL (November 1, 2011)** – Eidco Construction, one of the fastest growing general contractors in the United States, today announced that the firm has won a 65,000-square-foot renovation project at the Westgate Mall in Brainerd and Baxter, Minnesota.

Currently in progress under the direction of Eidco Senior Project Manager Edward Bogacki, the project was designed by Chipman Design Architecture, in collaboration with Ringdahl Architects, and involves a number of interior tenant improvements, along with exterior façade work and the construction of a building addition.

“The assignment has an expedited 60-day schedule for completion of the project and, as the mall sits on a city line, requires that we do work in two separate municipalities. But the team we have in place has the expertise needed to provide best-in-class work regardless of the short timeframe and varied locations,” said Chez Eider, CEO of Eidco Construction. “We have noticed a recent uptick in the number of Midwest retail assignments which is quite an encouraging sign.”

The 260,725-square-foot Westgate retail center has a tenant roster that includes anchor tenant Herberger’s Department Store, Dunhams, Big Lots and a 10-screen movie theatre.

#### **About Eidco Construction**

A leading general contractor and construction management company, Eidco Construction is experienced in the building of commercial construction projects as well as residential developments. The firm provides pre-construction, construction management, "fast track" building and design+build services. Through depth of professional experience and a strong network of best-in-class industry professionals and suppliers, Eidco Construction delivers unparalleled value and innovation to its clients nationwide.
