**Eidco Construction Announces Completion of
Townhome Community in Cranford, N.J.**

**Firm Handled Construction Management and Collaborated on Sales and
Marketing Efforts For Twin Oaks at Cranford**

CRANFORD, N.J. (Oct. 4, 2010) – Eidco Construction, one of the fastest growing commercial construction management companies in the United States, today announced the completion of construction at Twin Oaks at Cranford, a 21-unit, four-building townhome community at 1 Hale Street in Cranford, N.J.

Eidco served as construction manager for the community, and will collaborate with House Mart Realtors to market the homes.

“From the design phase to the marketing of the homes, Eidco has played a critical role in the success of Twin Oaks at Cranford, which benefits from a premier location that is adjacent to the thriving upscale Westfield neighborhood, in an ideal location for families and commuters” Eider said. “This is exactly the type of multifamily project that the market demands at this time.”

Eidco CEO Chez Eider collaborated on the project with Buckman Architectural Group of Kenilworth, N.J., which designed each building to contain flexible floor plans with differing numbers of units. The luxury residences include lavish touches such as all-wood floors, granite countertops, Kohler and GE appliances and Pella windows.

Twin Oaks’ Union County location is easily accessible from major roadways including the Garden State Parkway and Routes 22 and 78.

“House Mart, the leader in new construction sales, teamed up with Eidco to meet the demands of the suburban buyer, while being conscious of the builder’s bottom line,” stated Debbie Buragina, broker of record for House Mart Realtors. “In a challenging market, the on-site team is critical to relaying the demands of the prospective purchasers. A builder needs to be represented by a group that is working for their best interests. Understanding construction, reflecting the needs of today’s buyers and getting the job sold is what we do best.”
